

FOR IMMEDIATE RELEASE

SOUTHERN CALIFORNIA TELEPHONE ACQUIRES AIRE NETWORKS LLC

*Temecula, CA - June 15, 2007*

Southern California Telephone Company has recently completed the acquisition of Beaumont, CA based Aire Networks LLC.

This acquisition allows SCTC to provide managed data networks to communities, municipalities, universities, K-12 campuses and businesses with high data requirements. It also allows SCTC to offer Wireless DSL Internet service to their existing residential and commercial customers. As a result of this deal, SCTC inherits one of the largest fixed wireless networks in Southern California, consisting of nearly 5000 square miles of Service Area.

President and CEO Greg Michaels stated, "I am excited about this acquisition and the new talent we are bringing aboard. This is only the beginning of our aggressive expansion plans now in play. This is another milestone in our effort to forge our own destiny as a company."

Kevin Reno, Operations VP, said, "From an operations standpoint, we are functioning fully with the new Aire Networks customer base and are continuing to integrate the wireless Internet service into our existing business structure."
